

Welcome!

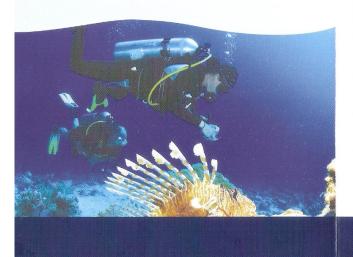

DiveAssure provides the diving community, both in the Philippines and world-wide, with the most comprehensive and competitively priced diving insurance and assistance programs available today. Our programs are designed specifically for divers and are aimed at meeting your unique needs.

Our plans are offered in cooperation with Duke Dive Medicine (DDM) at Duke University, North Carolina, USA, and under the medical oversight of hyperbaric medicine experts in the Philippines.

Our Basic Philippines Plan covers diving in the Philippines and includes the following, on both short period and annual basis:

- Medical emergency evacuation expenses to the nearest appropriate medical facility.
- Hospital/Hyperbaric chamber admission guarantee and consequent payment of all medical expenses.
- Oversight of evacuation and treatment by both Duke University dive medicine physicians and local medical team headed by Dr. Jose R. Bernardo.
- 24/7 worldwide emergency services, and much more (See comparison chart or read detailed policy wording).

The Platinum plan covers diving worldwide with higher limits and is available only as an annual membership.

Coverage Summary

Please visit www.diveassure.com for details.

These policies are underwritten at Lloyd's, London.

Complete details about the various programs and services, as well as quick and easy online registration forms are available at www.diveassure.com/new/ph.

This is only an outline of the available coverage. Full details about the coverage and complete provisions pertaining to this insurance including reductions, limitations, exclusions, and termination are contained in the Master Policy available at www.diveassure.com/new/ph. In the event of a discrepancy between the Description of Coverage and the Master Policy, the Policy will take precedence.

DiveAssure Cares

DiveAssure cares about its members' safety and the safety and success of scuba diving in the Philippines. That is why a percentage of DiveAssure's profits are donated to the maintenance and improvement of local diving safety. DiveAssure and DDM have embarked on a large scale project aimed at bringing diving safety in the Philippines to the highest level.

The Philippines DDM Safety Seal Project

This innovative Project, the first of its kind, is being initiated and paid for by DiveAssure in order to enhance the level of emergency medical services and diving safety in the Philippines. Here is how the DDM Safety Seal Project will be performed:

- DiveAssure through Duke Dive Medicine (DDM) at Duke University, North Carolina, USA will assess the technical conditions of the hyperbaric facilities throughout the Philippines. Based on the above survey, DDM will suggest what needs to be done in each hyperbaric facility in order to bring it to the highest technical level by DDM standards and then oversee the improvements.
- Additionally, DiveAssure and DDM will train the staff of each and every hyperbaric facility; doctors, nurses, paramedics and technical and assistance staff on an ongoing basis.
- DDM and DiveAssure will make recommendations for building additional hyperbaric facilities, where required.
 DiveAssure will then assist in the acquisition and staffing of these new facilities.
- DDM and DiveAssure will also help in certifying more local doctors as hyperbaric specialists, and conduct periodically seminars and training programs for nurses, paramedic and other hyperbaric staff.

Your Dive Shop/Travel Agent/Service Provider

You can register for any of the DiveAssure programs at your local dive shop. If you register on-line, please remember to choose your dive shop/service provider as your referrer.
